## Fact SheetRecreation Therapy Safe vs. Unsafe Actvities

After an injury there are certain activities that are unsafe. You will want to get your doctor's permission before going back to certain high-risk activities. It is important to remember that not all these recommendations are forever. The first year is especially important in remaining safe as your brain heals.

Unsafe Activities	Recommended Activities
DRIVING	
ATV's	YARD GAMES (BOCCE, CORNHOLE, LADDERBALL)
ROLLERCOASTERS	MODIFIED EXERCISE PROGRAM
COMPETITIVE CONTACT SPORTS	SWIMMING
HUNTING	LIGHT COOKING
